

EA520 Rugged Smartphone

IP67 rating + 5ft drop protection | Swappable 4100mAh battery | Compact design

Introducing the EA520: A 5" cutting-edge rugged smartphone that delivers powerful barcode reading performance, convenient connectivity, and durable but lightweight design that fits in the palm of your hand. This can enhance the service experience in a variety of vertical applications within the retail, hospitality and field service sectors.

Portable Power for a More Effective Retail Associate Experience

Running on the Android 11 OS with GMS certification, the EA520 is powered by an octa-core CPU to deliver users excellent performance for smarter, more intuitive interactions. Carefully designed for portability and versatile functionality, this device is easy to carry around for inventory checking, communicating with supervisors, and supporting customers on the sales floor. The EA520 redefines the retail associate working experience with its convenient features.

Outstanding Barcode Reading Performance

Featuring powerful 1D/2D scanning capability, the EA520 supports DPM codes and ensures read reliability on mobile phone screens and paper in any orientation. Powered by a swappable 4000mAh battery, it boasts an integrated HF/NFC RFID reader/writer, GPS, and a high resolution 13MP camera in a compact device. The EA520 gives your workforce the technology you need to take your business to the next level.

Durable Design

The EA520 is rugged enough for any industrial workplace, with durable protection features like IP67-level dust- and water-proofing and 6 feet of resistance to falls (6 feet with boot case). The EA520 is fully protected from dust and can survive in up to 3 feet of water for up to 30 minutes.

Seamless Connectivity

Featuring Bluetooth® 5, wireless dual bands with fast roaming and 4G connectivity for real-time data collection, the EA520 allows your staff to scan items and instantly connect to the backend system to find out the quantity in stock or make an online order for customers. The EA520 delivers a seamless work experience and improves productivity in various applications.
